

JUNIORS USE OF CLUB RIBS AND BOMBARDS

Only those with a PB2 qualification are permitted to helm club powerboats, unless accompanied and under the instruction of an RYA powerboat instructor.

If supporting sailors – two persons to be in the powerboat. A helm and a crew. The helm must have PB2. The crew can be an adult or over 14 year old, however if the helm is under 18, the crew must be over 18 years old.

Private Tuition – Helm must be over 18 years of age with a Senior Instructor or Racing Level 2 qualification as well as PB2. The helm must first ask permission and discuss their plans with the Commodore, Rear Commodore Sail or Junior Sail or the Principal. Permission will be given based on the experience of the sailor and weather forecast.

For other activities eg refuelling, laying marks – a helm can operate without a crew. Minimum age 14 with PB2. If under 18 with no crew, must receive approval of SI or Powerboat Instructor.

Every time a powerboat is taken out on the water a risk assessment must be filled out and posted through the letter box on the GYC office door prior to launch. Ribbit and GYC rib are fitted with engine usage monitors. Please ensure complete the log of time used.

Please ensure that club ribs/bombards are returned to where you found them.

Any breakages/issues should be reported to Kevin Walsh Kevinawalsh@cwgsy.net.
